PREFACE.

THE present is the seventh number of this little annual. Though comparatively a small volume the labor and time expended upon it is much greater than is generally supposed. Indeed few persons are aware of the many difficulties which present themselves in the compilation of a Directory of a city no larger than Cambridge. It is not only necessary that every family, in every house, should be called upon, but every store, workshop and place of business should be visited. Having performed this most essential part of the labor, it often appears that the information, furnished, (it may be by some member of the family not entirely qualified,) is not entirely correct. Then comes the labor of arranging names, correcting errors, and reading proofs by which a large amount of time is consumed.

Having had, however, several years experience in this department of labor, the publisher flatters himself that the present number will be found as accurate as it is possible to make a work of this kind. That the public may know something of the labor bestowed on this volume, we would state that the alterations for the Directory for 1854, have been as follows :

Names added,	977	Whole No. of names last year,	4138
Names expunged,	732	Do. do. present year,	4383
Other changes,	643		
Whole No. alterations,	2352	Increase,	245

The calculations for the calendar pages were made by Mr. Isaac Bradford, a gentleman connected with the Nautical Almanac office in this city.

GEORGE HEWS,

MANUFACTURER OF THE CELEBRATED

Patent American Action Piano Forte.

REMARKABLE for its *great strength*, *exceeding elasticity*, and *certainty of touch*, qualities so indispensable to the acquisition of skill in the use of the instrument, and so highly appreciated by the finished player.

Numerous Medals and Diplomas have been awarded for the superiority of this instrument the last fall.

365 Washington St., Melodeon Building, Boston.

The American Action Piano at the Great London Fair.

BOSTON, August 14, 1852.

The undersigned, who were officially associated with the *Great Exhibition* in London, are happy to bear testimony to the commendations bestowed on the instrument manufactured by our townsman, Mr. George Hews, by gentlemen capable of appreciating both the tone of a piano, as well as its external finish and elegance of workmanship. The unrivalled pianist, Thalberg, who was on the musical jury, pronounced it one of the *sweetest* as well as *most perfect toned instruments* in the Exhibition.

EDWARD RIDDLE, U. S. Com. to Lon. Ex. of 1851.

HOPKINS CLASSICAL SCHOOL.

This School, designed principally to fit boys for College, is under the management of a Board of Visitors, of which the President of Harvard College is Chairman. The instruction given is mainly in the classics and mathematics. Other branches, however, which are usually taught in academies receive a share of attention.

The size of the School makes it practicable to adapt the instruction closely to the capacity and wants of each scholar. No one is forced to waste his labor on what he cannot understand, merely because he has chanced to enter a certain class, but each is advanced according to his ability.

It is hoped that the past reputation of the School for thorough scholarship will be fully maintained in the future.
